DIRECTIONS

Vineland

This form asks about the adaptive behaviors of the child or adult on whom you are reporting. Adaptive behaviors are the day-to-day things that people do to communicate, take care of themselves, and get along with others.

Here is a sample item from the section called Caring for Self:

Read each item and choose the score that best describes what the person does on his/her own, without needing help or reminders.

SCORING

Score each item 2, 1, or 0 as follows:

- 2 = Usually or Often. Circle 2 if the person *usually or often* performs the behavior without help or reminders. (Or if he/she has outgrown the behavior—see below.)
- 1 = **Sometimes.** Circle 1 if the person *sometimes* performs the behavior without help or reminders.
- 0 = Never. Circle 0 if the person never performs the behavior, or never performs it without help or reminders. Some reasons why you might give a score of 0 are:
 - The person has not learned the behavior.
 - The person is not physically able to perform the behavior.
 - The person is not expected or allowed to perform the behavior.
 - The person can perform the behavior, but chooses not to.

If you are not sure how often the person performs a behavior, make your best guess. In addition to circling the item score, also check the box to the right of the item score in the column labeled Check if Est. (Est stands for Estimated.) If the person performed a behavior when he/she was younger, but has now outgrown it, score 2. **Do not check the Estimated box.**

Some items include a Scoring Tip, shown in gray underneath the item text, and marked by the symbol \square . Use the tips to help you score those items. For example, some items have a Scoring Tip that tells you to use a different way of scoring: 2 = Yes, 0 = No.

The pull-off pages labeled Scoring Criteria have more information about scoring some of the items.

WHICH ITEMS TO ANSWER

The person who gave you this form may have crossed out one or more sections. Just skip any crossed-out sections. You must complete all of the sections that are not crossed out.

In each section that is not crossed out, you will see that an item has been circled. Start with the circled item in each section—you don't have to answer any items before the circled item. Keep answering items until you have given five scores of 0 in a row. When that happens, stop and go on to the next section. If you have answered the items up to the end of a section and still don't have five 0s in a row, it's OK—just go on to the next section.
